Remarks

The within amendment is in response to the telephone interview between Examiner James G. Smith and applicant's attorney held earlier this week. It was agreed that an amendment of the type submitted herein, in response to the Examiner's suggestion of the last Office Action, would render the application in better condition for appeal. Such amendment has been agreed upon and is in the nature of an Examiner's amendment with the instant documentation being submitted to memorialize such changes. Note is taken that legitimate arguments can be made that the earlier change is unnecessary since there is only one "face" claimed previously, that of a square flat cut face, whereas there are plural faces which are rectangular faces. It is agreed, however that the instant amendment makes the claim in better form for being understood. The second change is an obvious typographical error.
